Westlands School Sixth Form Examination Results Summer 2011

Westlands School is delighted to report the publication of an excellent set of A Level and BTEC examination results for 2011. This year the school gained a significant rise in Average Point Score Per Student up 75 points from 2010 and a rise in Average Points Score per entry of 9 points. Overall the number of top grades doubled from 2010 with the overall A –E % standing at 99%. These results have been achieved at a time when Sixth Form numbers of students have increased considerably.

Headteacher Jon Whitcombe said:

I am delighted for our students' success in this year's Sixth Form examination results. We have seen our best ever set of examination results by far. I am particularly pleased with the outstanding quality of results in traditional academic A Level subjects such as maths and English where we have seen some phenomenal personal successes. Our Sixth Form here at Westlands has developed and grown significantly in the past two years with new excellent facilities for our students and very high quality teaching.

This year will no doubt show another record breaking number of Westlands students going on to University and fulfilling their ambitions. I would like to wish all of our leavers well and thank parents for their tremendous support over the past seven years.
