## Westlands School GCSE Results 2011

Westlands School is proud to announce the publication of its 2011 GCSE examination results. Once again, these demonstrate a record breaking and hugely successful year. Overall, 55% of pupils gained 5 A\* - C grades including English and maths. These results are our best results to date and should continue to improve in coming years.

Headteacher Jon Whitcombe said:

This is another outstanding set of results, most notably in English, maths and science. Each year we build upon our successes helping even more young people achieve. Westlands is a really exciting school to be part of and I am confident that in 2012 and beyond we will perform to an even higher standard.

As ever, my thanks, along with those of pupils and parents alike, should go to the dedicated professionals who teach and support young people here at Westlands enabling them to achieve such high standards.
