THE WESTLANDS SCHOOL

Starting in June we are running two Family Learning courses aimed at family members of pupils in Year 7. If you would like to improve your computing skills why not come along to our ICT course? Or, for the more sports minded, how about some archery? You don't need any previous knowledge or experience and the courses are entirely free. Take a closer look below

An introduction to Computing

An introduction to Archery

Learn how to use Word to present information, including using Headers and Footers, adding backgrounds and images and how to change font styles. Learn about basic spreadsheet skills, including using formulae, presentation skills and making graphs. It's totally free!

Archery is great fun for the whole family and is suitable for anybody! You will learn how to shoot a recurve bow. Over time your aim will improve and you will enjoy the satisfaction of hitting the gold. All equipment is provided and it's totally free!
